INDEX TO VOLUME 12

A

Abscess of lung, acute putrid (Neuhof and Touroff), 98

Adams, Ralph (with Churchill, E. D.). New instruments—a description of two gadgets of value in thoracic surgery, 158

Adams, W. E. (with Shaw, M. M., Rasmussen, R. A., Hrdina, L. S., and Aronson, H. G.). Experimental production of insufficiency and stenosis of heart valves in dogs, 322

(with Thornton, T. F.). Bronchogenic cysts of the mediastinum—report of three cases, 503

Allison, P. R. (with Johnstone, A. S., and Royce, G. B.). Short esophagus with simple peptic ulceration, 432

Altschule, Mark D. (with Cabitt, H. L., and Zamcheck, Norman). Cardiac arrhythmias and other electrocardiographic changes during experimental pneumonectomy, 31

American Association for Thoracic Surgery
list of members, 203,759
list of officers, 203,758

Amyloidosis, major surgery in (Beardsley), 590

Anatomy of pulmonary lobes, surgical (Kent and Blades), 18

Anderson, William M. Bronchial adenoma with metastasis to liver, 351

Andosca, John B. (with Foley, John A.). Basal tuberculosis, 259

Anesthesia, aspiration of the lower air passages following endotracheal (Bird), 44
for hydatid cysts of lung, free of adhesions, operation performed in one stage with inhalation (Ceballos), 533
in thoracoplasty, spinal (Schaffner and Found), 190

Aneurysm of aorta in individuals under 45 years of age, nonsyphilitic (Steinberg, Grishman, and Sussman), 704
ductus botalli as a surgical problem (Mackler and Graham), 719

Aorta in individuals under 45 years of age, nonsyphilitic aneurysm of (Steinberg, Grishman, and Sussman), 704

Arce, José (with Brea, Mario M.). Preliminary phrenic-vagus inhibition in thoracic surgery, 544
Accessory pulmonary artery, 548
Diverticulum of right primary bronchus, 638

Aronson, H. G. (with Shaw, M. M., Adams, W. E., and Hrdina, L. S.). Experimental production of insufficiency and stenosis of heart valves in dogs, 322

Asphyxia and asphyxial (anoxia) resuscitation, pulmonary and blood gas studies in experimental (Birnbaum and Thompson), 607

Asphyxial resuscitation, the phenomenon and its mechanism (Thompson and Birnbaum), 624

Aspiration of lower air passages following endotracheal anesthesia (Bird), 44

Atelectasis in same lung resulting from bronchogenic carcinoma, obstructive emphysema and (Cohen), 714

Aufses, Arthur H. Tuberculous endobronchitis and upper lobe bronchiectasis, 285

Aycock, T. B. (with Brantigan, O. C.). Self-retaining scapula retracting for thoracoplasty without use of special instrument, 394

B

Ballivert, Michel (with Santy, Paul, and Berard, Marcel). Thoracic esophagectomy for cancer, 397

Beardsley, James M. Major surgery in amyloidosis, 590

Behrend, Moses. Total pneumonectomy for pulmonary tuberculosis, 484

Berard, Marcel (with Santy, Paul, and Ballivert, Michel). Thoracic esophagectomy for cancer, 397

Berry, Frank B. (with Harrison, A. W.). Analysis of 150 cases of thoracoplasty for tuberculosis at Bellevue Hospital, 292

Bird, Clarence E. Aspiration of lower air passages following endotracheal anesthesia, 44

Birnbaum, George L. (with Thompson, S. A.). Asphyxial resuscitation, the phenomenon and its mechanism, 624
pulmonary and blood gas studies in experimental asphyxia and asphyxial (anoxia) resuscitation, 607
Blades, Brian (with Kent, Edward M.). Surgical anatomy of pulmonary lobes, 18
Blake, James M. (with Bradford, Joseph K.). Primary fibrosarcoma of chest wall following thoracic trauma, 368
Blood loss in thoracic operations (White and Buxton), 198
transfusion, experimental pulmonary edema following lobectomy (Gibbon, J., Gibbon, M., and Kraul), 60
Bradford, Joseph K. (with Blake, James M.). Primary fibrosarcoma of chest wall following thoracic trauma, 368
Brantigan, O. C. (with Aycock, T. B.). Self-retaining scapula retracting for thoracoplasty without use of special instrument, 394
Brea, Mario M. (with José, Arce). Preliminary phrenic-vagus inhibition in thoracic surgery, 544
Brezina, Philip S. (with Lindskog, Gustaf E.). Total pneumonectomy for metastatic uterine carcinoma, 728
Bronchi and vessels, surgical anatomy of (Miscall and Cornell), 526
Hodgkin's disease—report of case with involvement of (Smith and Shefts), 296
Bronchial adenoma with metastasis to the liver (Anderson), 351
involvement in metastatic pulmonary malignancy (King and Castleman), 305
tuberculosis, management of pulmonary tuberculosis complicated by (Rafferty and Shields), 225
Bronchiectasis, tuberculous endobronchitis and upper lobe (Aufses), 285
Bronchiogenic carcinoma, hemoptysis in metastatic tumors of lung simulating (Freedlander and Greenfield), 109
obstructive emphysema and atelectasis in same lung resulting from (Cohen), 714
cysts of mediastinum (Adams and Thornton), 503
Bronchography—use of modified intranasal method and movable table (Dormer, Friedlander, and Gibson), 35
Bronchoscopic collector (Pesquera), 302
Bronchoscopy in pulmonary tuberculosis (Lloyd and Budetti), 668
Bronchus, diverticulum of right primary (Arce), 638
Budetti, Joseph A. (with Lloyd, Milton Sills). Bronchoscopy in pulmonary tuberculosis, 668
Buxton, Robert W. (with White, M. L., Jr.). Blood loss in thoracic operations, 198

C

Cabitt, Henry L. (with Altschule, Mark D., and Zamcheck, Norman). Cardiac arrhythmias and other electrocardiographic changes during experimental pneumonectomy, 31
Camiel, Mortimer Richard (with Rendich, Richard A.). Massive conglomerate lesions of silicosis differentiated from pulmonary neoplasm, 686
Cancer of trachea—fifteen years after treatment for cancer of larynx (Watson), 142
thoracic esophagectomy for (Santy, Ballivert, and Berard), 397
Carcinoma of human lung, morphology of primary (Mulligan and Harper), 734
total pneumonectomy for metastatic uterine (Brezina and Lindskog), 728
Cardiac arrhythmias and other electrocardiographic changes during experimental pneumonectomy (Cabitt, Altschule, and Zamcheck), 31
enlargement, decompression of chest for dysphagia due to marked (Newton and Levine), 151
Carlson, Herbert A. Congenital cysts of the mediastinum, 376
Carotid artery, transpleural, intrathoracic ligation of left common (Coleman), 659
Castleman, Benjamin (with King, Donald S.). Bronchial involvement in metastatic pulmonary malignancy, 305
Ceballos, Alejandro. Operation performed in one stage with inhalation anesthesia for hydatid cysts of lung, free of adhesions, 533

Churchill, Edward D. Discussion of experimental pulmonary edema following lobectomy and blood transfusion, 76

Clagett, O. Theron (with Shepard, V. Duncan). Chronic empyema, 464

Cohen, Abraham G. Obstructive emphysema and atelectasis in same lung resulting from bronchogenic carcinoma, 714

Coleman, Frank P. Transpleural, intrathoracic ligation of left common carotid artery, 659

Cornell, Carleton M. (with Miscall, Laurence). Surgical anatomy of the bronchi and vessels, 526

Coronary ligation in wounds of heart (Zerbini), 642

Cory, Richard A. S. Thoracoscopic removal from chest of broken anesthetic needle, 753

Wound healing after thoracoplasty in tropical hospital, 653

Curtis, George M. (with Greenfield, Jack). The "sniff test" in thoracic surgery, 78

Cysts of lungs, free of adhesions, operation performed in one stage with inhalation anesthesia for hydatid (Ceballos), 533

of mediastinum, bronchogenic (Adams and Thornton), 503

congenital (Carlson), 376

"spring water" cyst of (Greenfield, Steinberg, and Touroff), 495

thoracic gastric (Schwarz and Williams), 117

D

Daniels, A. C. (with Rogers, W. L., and Shipman, Sidney). Flap drainage of residual tuberculous cavities, 88

Davis, Edgar W. Discussion of flap drainage of residual tuberculous cavities, 96

Decker, Harry R. Discussion of experimental pulmonary edema following lobectomy and blood transfusion, 77

Decompression of chest for dysphagia due to marked cardiac enlargement (Newton and Levine), 151

Diaphragmatic hernias in children, principles involved in surgical treatment of (Dorsey), 267

Diverticulum of right primary bronchus (Arce), 638

Donaldson, J. K. Surgical approach for incision and drainage of nonpurulent and purulent pericardial effusions, 209

Dormer, B. A. (with Friedlander, J., and Gibson, M.). Bronchography—use of modified intranasal method and movable table, 35

Dorsey, John M. Principles involved in surgical treatment of diaphragmatic hernias in children, 267

Ductus arteriosus, further experiences in surgical treatment of subacute streptococcus viridans endarteritis superimposed on (Touroff), 1

Dysphagia due to marked cardiac enlargement, decompression of chest for (Newton and Levine), 151

E

Electrocardiographic changes during experimental pneumonectomy, cardiac arrhythmias and other (Cabitt, Altschule, and Zamcheck), 31

Eloesser, Leo. Discussion of experimental pulmonary edema following lobectomy and blood transfusion, 76

Emphysema and atelectasis in same lung resulting from bronchogenic carcinoma, obstructive (Cohen), 714

Empyema, chronic (Clagett and Shepard), 464

in infants and children, postpneumonic (Williams), 160

putrid (Kross), 601

Erganian, Jane (with Wade, Leo J.). Chronic fibrous mediastinitis with obstruction of superior vena cava, 275

Esophagectomy for cancer, thoracic (Santy, Ballivert, and Berard), 397

Esophagoscopy, method of preventing perforation in (Lloyd), 186

Esophagus with simple peptic ulceration, short (Allison, Johnstone, and Royce), 432

F

Fibrosarcoma of chest wall following thoracic trauma, primary (Blake and Bradford), 368

Foley, John A. (with Andosca, John B.). Basal tuberculosis, 259

Found, E. M. (with Shaffner, V. D).. Spinal anesthesia in thoracoplasty, 190

Freedlander, Samuel (with Greenfield, Jack). Hemoptysis in metastatic tumors of lung simulating bronchiogenic carcinoma, 109

Friedlander, J. (with Dormer, B. A., and Gibson, M.). Bronchography—use of modified intranasal method and movable table, 35
